ANTONI MALKI

FRONT END DEVELOPER

ABOUT

I started my professional journey with various full-stack projects in different sectors and realized that I was naturally attracted by the front end part. I've been fond of the art world for a long time already. I draw and paint regularly and I am always looking for a new way to express myself in a creative way. The front-end world allows me to unite my love for engineering and art. Therefore, I put all my energy and passion into my creations. I am always looking for new challenges and enjoy combining knowledge and skills when working with other people.

EDUCATION

DOUBLE DEGREE: ELECTRICAL AND ELECTRONIC ENGINEERING

The University of Plymouth| 2014- 2015
Plymouth, United Kingdom

ENGINEER DEGREE : COMPUTER SCIENCE

Ecole supérieur d'informatique et d'électronique, ESIEA, | 2009 - 2015
